## Education
**Full Stack Web Development - Berkeley Coding Boot Camp**                                        March 2021

Programming Proficient Skills:

| HTML5 | CSS | Javascript & jQuery | Markdown | Web API |
|-------|-----|---------------------|----------|---------|
| Semantic HTML | Bootstrap | JSON | Pseudocoding | Server Side API |
| Git | GitHub | Local Storage | Frontend | AJAX |

**Medical Sales College**                                        November 2018
- Learned about skeletal, wound, soft tissue and cartilage biology, healing and biologic products

**University of California, Riverside**                                        December 2017
Bachelors of Science in Biology

## Work Experience
**3 Bridge Networks, San Francisco, California**                                        2020
*Staffing Intern*
- Collaborated closely with staff to create a basis to filter through thousands of candidate profiles daily to judge if they could be recruited
- Managed an Excel database of the candidates and organized them according to profession
- Installed various technological devices to modernize the workspace
- Helped optimize and streamline the candidate searching process

**Anderson's Swim School, Pacifica, California**                                        June 2013 - August 2014
*Swim Instructor*
- Instructed private lessons to children ages two to eighteen to familiarize themselves with the water, taught basic survival swimming, competitive swimming strokes, and general water safety
- Identified problems in a swimmer's form and developed ways to correct them, often these errors were unique to the swimmer
- Assisted staff by offering teaching advice and methods when needed

**Daly City Aquatics Recreation, Daly City, California**                                        October 2011 - May 2013
*Swim Instructor*
- Instructed classes of six to nine students ranging from ages two to forty to become comfortable with the water and taught competitive strokes afterwards
- Developed specialized lesson plans to best suit the group of students
- Practiced explaining myself clearly and simply to effectively communicate with groups of toddler and adult students
- Developed student's confidence in themselves while swimming
